NIKHIL MAGDUM

Java Developer

Tal-Gadhinglaj, Dist- Kolhapur, State- Maharashtra – 416502 | 9021007271 | nikhilmagdum2003@gmail.com | LInked-In | GitHub

SUMMARY

Motivated Computer Applications graduate seeking a Java Developer role. Strong foundation in Core Java, Object-Oriented Programming, Collections Framework, Exception Handling, Multithreading, JDBC, Spring Boot, Spring MVC, Hibernate, Spring Data JPA, and PostgreSQL. Familiar with developing backend applications and RESTful APIs using modern Java technologies. Passionate about writing clean, efficient, and maintainable code. Eager to contribute to real-world software development projects.

TECHNICAL SKILLS

Language: Java (Core Java: Object-Oriented Programming, Collections Framework, Exception Handling, Multithreading, Java 8, Java 17)

Backend: JDBC, Spring (Basics), Spring Boot, Spring MVC, Hibernate, Spring Data JPA, Spring Security, JWT, REST APIs

Database: PostgreSQL

Tools: Eclipse IDE, STS, Git/GitHub, Postman, Swagger

EXPERIENCE

Software Developer Internship | Humming Byte Technologies Private Limited. | April 2026 – September 2026

- Built 40+ REST APIs in Java Spring Boot, reducing response latency by 25% via query optimization.
- Integrated frontend and backend components using JSON-based REST APIs to enable seamless data exchange.
- Validated and documented REST APIs using Postman and Swagger, ensuring reliable and well-documented endpoints.

PROJECTS

RD System – Recurring Deposit Management System

Tech Stack: Java, Spring Boot, React.js, PostgreSQL, Spring Data JPA, Bootstrap

- Developed a full-stack RD management system using Spring Boot, React.js, and PostgreSQL.
- Built REST APIs for RD users, passbook entries, and admin authentication with CRUD functionality.
- Implemented JPA/Hibernate relationships and backend validation for reliable data management.
- Developed automated RD due-date, late-day, fine, and maturity calculations.
- Created a responsive React.js + Bootstrap interface for managing RD accounts and passbook records.
- Tested and verified APIs using Postman and integrated the frontend with Spring Boot REST APIs.

JobConnect – Job Portal Backend

Tech Stack: Java 21, Spring Boot, Spring Data JPA, Hibernate, PostgreSQL, Spring Security, JWT, Gradle, REST APIs, Postman, Swagger

- Developed a secure REST API-based Job Portal backend using Spring Boot that connects Candidates and Recruiters.
- Developed REST APIs for User, Candidate, Company, Job, Application, Saved Job, and Notification modules.
- Implemented JWT authentication, Spring Security, and role-based authorization for Candidate and Recruiter.
- Implemented BCrypt password encryption, forgot/reset password, and secure DTO-based responses.
- Developed job search, filtering, pagination, and sorting features.
- Implemented job application, duplicate prevention, status update, withdrawal, saved jobs, and notifications.
- Used Spring Data JPA, Hibernate, and PostgreSQL; tested APIs using Postman and Swagger.

EDUCATION

Bachelor of Computer Applications (B.C.A.) | July 2021 – March 2024

Shivaji University | Shivraj College Gadhinglaj | Percentage: 66%

H.S.C. Vocational | Electronics Technology | July 2020 – Feb 2021

Sadhana Junior College Gadhinglaj | Percentage: 76%

CERTIFICATIONS

Java Full Stack Development – Coding Seekho Certificate
